December 1, 2011

Honorable President Mr. Ronald VanRensalier and
Members of the Passaic Board of Education
101 Passaic Avenue
Passaic, New Jersey 07055

Dr. Robert H. Holster
Superintendent of
Schools

Dear President and Members of the Board of Education:

The Comprehensive Annual Financial Report (CAFR) of the Passaic Board of Education for the fiscal year ended June 30, 2011 is submitted by the district's Office of the Superintendent of Schools and the School Business Administrator. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education of the City of Passaic, specifically the Superintendent of Schools and the Board Secretary/ School Business Administrator.

TO the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the Passaic Public Schools. All disclosures necessary to enable the reader to gain an understanding of the district's financial activities have been included. The district's internal controls have been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

THE district has implemented Statement No. 34 of the Governmental Accounting Standards Board (GASB) entitled *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. This standard, issued in June 1999, created a revised reporting model of financial information and disclosure. There are two main basic financial statements created by this standard:

1. Statement of Net Assets and
2. Statement of Activities

These two statements tend to answer the questions: "Is the district better or worse off financially than it was in the previous year?" A comparison of net assets should help the reader in answering that question. Administration is happy to report the financial status of the Passaic Public Schools at June 30, 2011 has improved and is very healthy.

Also required as part of the "Required Supplementary Information" by GASB Statement No. 34 is a "Management's Discussion and Analysis" (MD&A), which allows the district to explain in layman terms its financial position and results of operation of the past fiscal year.

REPORT FORMAT

The Comprehensive Annual Financial Report is presented in four sections: Introductory, Financial, Statistical and Single Audit. The purpose of each section of the CAFR is as follows:

- **Introductory Section**—This section includes this transmittal letter, the district's organization chart and a list of principal officials. This section is intended to familiarize the reader with the organizational structure of the school district, the nature and scope of the services it provides, and the specifics of its legal operating environment. It is primarily designed for the taxpayer.
- **Financial Section**—This includes the independent auditor's report, the Management's Discussion and Analysis (MD&A), basic financial statements, supplemental information and the combining and individual fund schedules. It is primarily designed for oversight and legislative bodies.

Generally accepted accounting principles (GAAP) requires that the management provides a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter is designed to complement the MD&A and should be read in conjunction with it. The MD&A of the Passaic Public Schools can be found immediately following the report of the independent auditors.

- **Statistical Section**—Contains substantial financial information, but presents tables that differ from financial statements in that they present non-accounting data, cover several years, and are designed to reflect social and economic data and financial and fiscal trends, as well as the fiscal capacity of the district. Unless otherwise noted, the information in these

schedules is derived from the comprehensive annual financial reports for the relevant years.

- **Financial Trends J-1 to J-5**
These schedules contain trend information to help the reader understand how the Passaic Public Schools' financial performance and well-being have changed over time.
- **Revenue Capacity J-6 to J-9**
These schedules contain information to help the reader assess the Passaic Public Schools' most significant local revenue source, the property tax.
- **Debt Capacity J-10 to J-13**
These schedules present information to help the reader assess the Passaic Public Schools' current levels of outstanding debt and the government's ability to issue additional debt in the future.
- **Demographic and Economic Information J-14 and J-15**
These schedules offer demographic and economic indicators to help the reader understand the environment within which the Passaic Public Schools' financial activities take place.
- **Operating Information J-16 to J-20**
These schedules contain service and infrastructure data to help the reader understand how the information in the Passaic Public Schools' financial report relates to the services the government provides and the activities it performs.
- **Single Audit Section**—The district is required to undergo an annual single audit in conformity with the provisions of the Federal Single Audit Act and applicable US Office of Management and Budget Circulars; and the applicable State of New Jersey OMB Circulars.

Information related to this single audit, including the auditors' report on the internal control structure and compliance with applicable laws, regulations, findings and recommendations, is included in the Single Audit Section of this report.

This section includes independent auditors' reports on compliance and internal control, schedules of expenditures for federal and state grants, notes to the schedules of expenditures of federal and state grants, schedule of findings and questioned costs, and a summary schedule of prior audit findings.

REPORTING ENTITY AND ITS SERVICES

The Passaic Board of Education is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board (GASB). All funds of the district are included in this report. The Board of Education and all its schools constitute the district's reporting entity.

Organization of the Board of Education

The Board of Education is a Type II school district whose boundaries are coterminous with the City of Passaic in Passaic County, New Jersey.

The Board of Education has nine (9) members that are elected for three (3) year overlapping terms. The members of the Board are residents of the City of Passaic and vote on all matters before the Board of Education. The Board of Education is annually organized on any day of the first or second week following the annual school election.

All Board of Education meetings are public. The Board holds regularly scheduled public meetings once a month.

The Board of Education provides a full range of free public educational services appropriate to grade levels prekindergarten through grade 12 for residents of the City of Passaic. These educational services include regular and vocational programs, as well as special programs, to address the educational needs of children with disabilities and handicaps. The district also provides programs for those children requiring academic remediation and for children with limited English language proficiency.

City of Passaic

The City of Passaic is located in the southeastern portion of Passaic County, New Jersey. Its 3.2 square miles of land area contain mixed industrial, commercial, and residential land uses developed at a population density of 21,207 persons per square mile. According to the 2010 Census the City has a population of 69,781. Currently, the City is almost totally developed.

The City of Passaic is within Passaic County, 12 miles west of New York City. Passaic is situated on the Passaic River in a portion of lowlands between the First Watchung Mountains to the West and the low ridges on the westerly side of the Hackensack Meadows to the East.

The racial and ethnic demographic of the City of Passaic from the 2010 United States Census reflects a majority Hispanic/Latino population of 49,557 (71%), a White population of 9,014 (13%), an African American population of 7,425 (11%), and other population (inclusive of Native Americans, Asians, Pacific Islanders, and East Indians) of 3,785 (5%).

Passaic Public Schools

Passaic Public Schools have a diverse student body, with the ethnicity of students at October 15, 2011 being Hispanic/Latino 12,714 (90%); African American 875 (7%); Asian/Pacific Islander 310 (2%); and White 186 (.01%).

Many students come from a disadvantaged background with 11,491 of the student body eligible for free meals and 821 eligible for reduced priced meals under the National School Breakfast & Lunch Program. The chart that follows reflects eligibility for free and reduced priced meals by school for the 2010-11 school year as reported on the Application for State School Aid (ASSA).

Note: Not included in the above schedule are 58 charter school students.

The number of children qualifying for free meals impacts both state aid (At-Risk) component and federal aid (NCLB Title I).

In the 2010-11 school year, the district operated sixteen (16) schools: twelve (12) owned and four (4) leased. In the 2010-11 school year the school district discontinued the use of three (3) leased school buildings:

- Learning Center
- School #14
- School #18

The district reported 13,562 pupils on roll (grades prekindergarten through grade 12) in district schools on October 15, 2010 for its 2011-12 Application for State School Aid (ASSA) student count.

The following represents a listing of schools, grade configurations and the enrollments taken from the Applications for State School Aid enrollment count on October 15, 2010, compared with the October 15, 2009 enrollment counts.

Total Enrollment				13,156	13,562

Resident enrollment is the enrollment total utilized for state aid funding. This total includes all students counted on the roll/ school district register, students in out of district placements, students in private schools, students on home instruction, less students

enrolled in the early childhood education programs the last day preceding October 16 of each school year. This count also includes those incarcerated in state facilities who receive instruction whose legal residence is the City of Passaic. This is contrasted to in-district students “on roll” that counts students enrolled in district schools and charter schools. There were 58 charter school students counted as students on roll on October 14 2010. This is an increase of eleven (11) students attending Charter Schools.

The following represents the changes in the resident enrollment in the Passaic Public Schools over the last ten (10) years. The ten year comparison of resident enrollment reflects an increase of 1,092 students.

District Factor Groupings

The low tax base and the high local tax rate in the City of Passaic classify the school district as an “A” district in the New Jersey Department of Education’s district factor groupings (DFG). District Factor Grouping (DFG) is a system of ranking schools by socio-economic status. The group designations are based on information from census data and include the following community data: income, poverty, unemployment, percent of population with no high school diploma, percent of population with some college, occupations, and population density.

There are eight DFG groupings: “A” designates the lowest socio-economic level, followed by B, CD, DE, FG, GH, I, and J. The DFG groupings are valuable for comparison of districts with similar profiles for purposes of state aid and assessment information.

MAJOR INITIATIVES

Sustainable programs and services that have set the stage for Passaic Public Schools closing the achievement gap and providing an environment conducive to improved teaching and learning are as follows:

- Alternative Education Programs
- Benchmark assessments
- Data analysis to data driven instruction
- Dropout prevention programs
- Early childhood education programs
- Early literacy initiative (center based learning, differentiated instruction, uninterrupted reading, co-teaching, literacy coaches, imbedded PD)
- Embedded professional development
- Gifted and talented opportunities
- Health and social services (Optical/Dental/Rx Drug Programs)
- Improved security initiatives—School Resource Officers & In-house Security
- Instructional walks
- Meeting the needs of subgroup student populations (ELL, at risk and special education students)
- Parental involvement—Parent Liaisons
- Professional leaning communities— professional development
- Response to Intervention—Special Education
- Standards Based Curriculum (Scott Foresman/ Everyday Math)
- Technology in classrooms—Technology Coordinators/ Technicians
- Writers' Workshop

Short Term Facilities Remedies

The district has a short fall in its school building capacity that necessitated the rental of three schools and the utilization of temporary classroom units (TCUs):

- (1) School #2,
- (2) School #5 (opened in September 1995),
- (3) School #16 (opened in March 2000),
- (4) School #17 (thirty five temporary classroom units (TCUs)

The district is also under contract with the Passaic County Educational Services Commission for the operation of Hope Academy, an alternative school program for over-aged general education students. This school is located at 226 Harrison Street, Passaic, New Jersey with an enrollment of 70 students. The annual contract for the operation of this school was \$1,363,740.00.

The district is experiencing a shortfall in instructional facilities (classroom, labs, and specialized spaces) at the high school level. This capacity short fall is negatively impacting the ability of Passaic High School to fully implement the secondary school initiative.

**Early Childhood Education--
Collaboration with NJ Department of Human Services**

The district operates mandated prekindergarten programs, where the district provides a full-day educational program for three-and-four-year-old children. The State of New Jersey Department of Human Services, Division of Family Development collaborates with the Board of Education and the New Jersey Department of Education in funding a four hour wraparound services. Beginning in the 2007-08 school year, the Department of Human Services instituted a program where the free wraparound services were predicated on income eligibility.

ECONOMIC CONDITIONS AND OUTLOOK

State Aid Revenues

The district receives in excess of 80% of its general fund operating revenues from the State of New Jersey. This support comes primarily from the School Reform Funding Act of 2008 (SRFA) formula aid. SFRA is driven by enrollment that is reported in the annual Application for State School Aid (ASSA) and pupil transportation as reported annually in the District Report of Transported Students Report (DRTRS). The district's efforts to accurately capture and report student information are important toward maximizing this major revenue source.

The State of New Jersey has felt the full force of the global economic downturn. The State delayed its final two 2010-11 state aid payments to school districts in an effort to end its year in a positive financial position.

Local Revenues

The second largest source of school district operating revenues is local revenues with the local tax levy being the primary local revenue source. Under the School Funding Reform Act (SFRA), Passaic Public Schools was "under adequacy." The Passaic Public School District is under adequacy, and the City of Passaic has had to increase its local tax levy in the two years of SFRA. The district's 2009-10 local tax levy was increased by 4%. The 2010-11 local tax levy was increased by 7%.

Elected municipal officials and the members of the Board of Education have both expressed strong concern for increased economic vitality within the City of Passaic. There has been a reluctance to increase local taxes. Local elected officials are desirous of developing budgets that reflect stability with preferably no increase in the local tax levy. The need to attract ratables remains a challenge for the City of Passaic.

Other components of the local revenues are interest income and miscellaneous revenues. Interest income is driven by the market interest rates that are now at historic lows. Miscellaneous revenue sources have remained stable year after year.

E-rate Reimbursements

The district continues to seek increases in its revenue through E-rate reimbursements. The Schools and Libraries Program of the Universal Service Fund, commonly known as "E-Rate," is administered by the Universal Service Administrative Company (USAC) under the direction of the Federal Communications Commission (FCC) and provides discounts to assist most schools and libraries in the United States to obtain affordable telecommunications and Internet access.

Special Education Medicaid Initiative

The district seeks to maximize the revenue generating potential of the federally sponsored Special Education Medicaid Initiative (SEMI). SEMI provides reimbursement to the district for its providing services to students who are both receiving qualified special education services and who are also Medicaid eligible.

Economic Development in the City of Passaic

An investment in the community is required to improve the quality of life for the citizenry. Quality of life factors include an improved lifestyle, recreation, employment opportunities, commercial and industrial growth, and well-planned full municipal services to address the needs of its constituency.

Strengths of Passaic include a diverse population, an abundant and eager workforce, and an accessible highway system. The Passaic Public School District has positioned itself to provide a marketable well trained workforce with the necessary skills and opportunities to compete in a global market, while at the same time meeting the workforce demands.

The City of Passaic is designated an Enterprise Zone that carries a reduced New Jersey sales tax rate as an incentive to economic growth. The New Jersey Sales Tax in an Enterprise Zone is three-and-one half (3.5%) percent, as compared with a seven (7%) percent sales tax in other areas of the state.

Federal Revenues

Federal revenues to support the budget are largely related to the Special Revenue Fund. The Special Revenue Fund consists of grant monies restricted to the purpose of the granting institution. The No Child Left Behind (NCLB) grant is the largest federally funded special revenue grant available to the Passaic Public Schools.

The second largest federally funded grant is the Individuals with Disabilities Education Act (IDEA). The district uses these IDEA funds to supplement its general fund special education programs. One of the essential tenets of federal funding is supplement not supplant, e.g. using federal funds to maintain current operational costs. The Board of Education has attempted to maximize these funds in its ongoing effort to efficiently

educate its student constituency. The Board of Education is cautious in applying for and accepting grant funds that do not connect with the overall objectives of the school district.

FISCAL MANAGEMENT

Passaic Public Schools Business Office 2010-11

The Business Office staff of the Passaic Public Schools consists of professional administrators, managers and support staff organized in functions of:

- Office of the School Business Administrator/ Board Secretary
- Office of the Assistant School Business Administrator/ Assistant Board Secretary/ Purchasing Agent
- Office of the Comptroller/ Accounting
- Payroll Office
- Account Payable Office
- Transportation Coordinator's Office

Fiscal management of the school district rests with the School Business Administrator/ Board Secretary, assisted by the Assistant School Business Administrator/ Assistant Board Secretary/ Purchasing Agent.

The School Business Administrator serves as the Chief Fiscal Officer. The focus of the School Business Administrator is on financial planning, budgeting, financial reporting, auditing, and corrective action plans. The School Business Administrator is also the Board Secretary.

The Assistant School Business Administrator/ Purchasing Agent, who is the district's Qualified Purchasing Agent, focuses on contracts, procurement, pupil transportation, facilities management, risk management, Board of Education relations, policies and procedures.

INTERNAL ACCOUNTING CONTROLS

Management of the Passaic Public Schools is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the district are protected from loss, theft or misuse. District management is also responsible to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The concept of reasonable assurance recognizes that:

- (1) the cost of a control should not exceed the benefits likely to be derived; and
- (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the district is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the management of the school district.

The district has established policies and procedures to effectively implement and maintain an internal accounting control structure that safeguards the district's financial integrity. These policies and procedures are continually evaluated.

The district's comptroller, together with business office staff, assures compliance with GAAP, preparation of timely and accurate Secretary's Reports and the refinement of internal controls. The Comptroller's position has focused on continued refinement of internal controls, implementation of audit recommendations and the development of organizational efficiency.

Erlinda Arellano, CPA, Comptroller

Other responsibilities of the Comptroller include:

- GASB NO. 34 Capital Assets Compliance
- FICA Reimbursement Draw-downs
- Preparation of monthly Interest Earned Report
- Year end audit—Preparation of financial schedules
- TPAF Reimbursement Reports
- Review and Approve Journal Entries, Cash Transfers and Domestic Wires
- Reconciliation of Summer Pay/ Maintenance of Accounting Records, Bank Transactions and Preparation of Financial Reports
- Preparation of payroll tax returns
- Maintenance of district's daily cash position
- Annual compliance review of student activity accounts
- Annual compliance review of petty cash accounts
- Provide technical (accounting) assistance district-wide when necessary

As part of the district's single audit described earlier, tests are made to determine the adequacy of the internal control, including that portion related to federal award and state financial assistance programs, as well as to determine that the district has complied with applicable laws and regulations.

BUDGETARY CONTROLS

The district maintains budgetary controls under the direction of the Budget Manager. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriations budget approved by the voters of the City of Passaic. Annual appropriation budgets are adopted for the general fund, the special revenue fund and the debt service fund. Project-length budgets are approved for capital improvements accounted for in the capital projects

Devon Troxler, Budget Manager

fund. The final budget amount, as amended for the fiscal year, is reflected in the Financial Section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in a subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2010.

The New Jersey Department of Education has prescribed forms and formats for the presentation of the annual school budget. The Board of Education adheres to Department of Education requirements for budget development, presentation and adoption. The Budget Manager's primary responsibilities are budget preparation, budget development, budget monitoring and budget modifications.

PROPRIETARY FUND

The Food Service Enterprise Fund accounts for the operation of food services in all schools within the school district. The district has been under pressure from the New Jersey Department of Education to eliminate deficits in the operations of its child nutrition programs. A multi-year corrective action plan was initiated in the 2007-08 school year intended to eliminate the deficit in the Food Services Fund. A more complete discussion of the Food Services Fund Corrective Action Plan is reflected in the Management's Disclosure and Analysis (MD&A) section of this CAFR.

FIDUCIARY FUNDS

Fiduciary Funds consist of assets held by the district as an agent for student organizations, private organizations, other governments and other funds.

DEBT ADMINISTRATION

The Passaic Public Schools are authorized to issue debt based on the action of voters at authorized elections where a referendum is approved. Once the voters approve the referendum, the district is authorized to issue debt, with the payment of principal and interest becoming a part of the annual budget. The SFRA provides state aid to assist in the support of the district's debt obligation.

The Supreme Court Decision in *Abbott v. Burke* made the State of New Jersey responsible for assuming the new debt to implement the Facilities Management Plan. With this Supreme Court mandate, the Passaic Public Schools are unlikely to incur additional debt associated with school construction in the foreseeable future.

CASH MANAGEMENT & INVESTMENTS

The investment policy of the district is guided in large part by state statute. The district has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provision of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey where the funds are secured in accordance with the act.

The district, through the assignment of the comptroller, invests idle funds in the New Jersey Cash Management Fund, Beneficial Bank and with the Capital One Bank.

RISK MANAGEMENT

The Board of Education utilized Charles Grabowsky as its insurance consultant who assisted in the preparation of property and casualty insurance and employee benefits specifications. The district awarded its property and casualty insurance to the Nathan Lane Agency, Wyckoff, New Jersey that includes coverages for: general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

The Fairview Insurance Agency, Verona, New Jersey was awarded a contract as broker of record for employee benefits insurances. The Board of Education provides employee insurances in accordance with collective bargaining agreements for medical, prescription drugs, dental, optical and disability programs. The statistical section includes a schedule that outlines the types and amounts of coverage.

The Board of Education maintains a self-insured, reinsured workers compensation program, with Pennsylvania Manufacturers Association (PMA) serving as the 3rd party administrator.

OTHER INFORMATION

Independent Audit--State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Lerch, Vinci & Higgins, Fair Lawn, New Jersey was selected by the Board of Education as the auditors for the 1993 year end financials. Lerch, Vinci & Higgins has continued to be retained by the Board of Education for audit engagements.

The auditor's report on the basic financial statements is included in the Financial Section of this report. The auditor's report, related specifically to the single audit, is included in the Single Audit Section of this report.

ADMINISTRATION CHANGES

Effective August 31, 2011, Mr. Henry J. Lee, School Business Administrator/Board Secretary retired. Mr. James Shoop was appointed Interim School Business Administrator, Ms. Erlinda R Arellano, CPA as Acting Assistant School Business Administrator and Mr. John Farina as Acting Comptroller.

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members
of the Board of Trustees
Passaic Public Schools
Passaic, New Jersey

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Passaic Public Schools as of and for the fiscal year ended June 30, 2011, which collectively comprise the Passaic Public Schools' basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Passaic Public Schools' management. Our responsibility is to express opinions on these financial statements based on our audit.

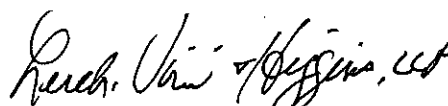

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in the Government Auditing Standards, issued by the Comptroller General of the United States and audit requirements as prescribed by the Division of Finance and Regulatory Compliance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Passaic Public Schools' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Passaic Public Schools as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated November 22, 2011 on our consideration of the Passaic Public Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Passaic Public Schools' basic financial statements as a whole. The introductory section, combining fund financial statements, financial schedules and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations" and New Jersey OMB's Circular 04-04, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid", and are also not a required part of the basic financial statements. The combining fund financial statements and schedules of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole. The introductory section, financial schedules and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Passaic Public Schools

Passaic, New Jersey

Management's Discussion and Analysis Fiscal Year Ended June 30, 2011

This section of Passaic Public Schools' Comprehensive Annual Financial Report presents our discussion and analysis of the District's financial performance during the fiscal year ending June 30, 2011. Please read it in conjunction with the transmittal letter found at the front of this report and the District's basic financial statements, which immediately follow this section.

This Management's Discussion and Analysis (MD&A), is intended as a report on the overall status of the school district's financial health. Administration is happy to report that the financial status of the Passaic Public Schools at June 30, 2011 was healthy.

FINANCIAL HIGHLIGHTS

The Financial Highlights section of the MD&A reflects (1) significant improvements concerning 2010-11 operations and (2) key financial information.

Significant Improvement

Significant areas of improvement, indicating a healthy financial condition for the 2010-11 fiscal year, are listed herein:

- Net assets of the district increased by \$13,391,131 (6%) from June 30, 2010 through June 30, 2011. Net assets of the Governmental Activities were \$214,569,960 as compared with \$201,415,127 in the prior year.
- The General Fund ended the 2010-11 fiscal year with an unassigned fund balance of \$3,786,851 (budgetary basis).
- The district's Food Service Enterprise Fund achieved its third year of profitable operations. Food Services ended 2010-11 with net assets of \$395,545.
- The district deposited \$5,000,000 into its Capital Reserve in 2010-11. The district withdraw \$591,350 for Auditorium Renovations during 2010-11.
- The district appropriated \$9,208,993 of fund balance for the 2011-12 school year.
- The district recorded \$760,830 in SEMI Medicaid Reimbursement, exceeding the budget expectations by \$364,182.

Key Financial Information

- The district received a \$9,551,425 (-5.2%) decrease in general fund formula state aid for 2010-11 attributable to the School Funding Reform Act of 2008.
- The district received a \$197,430 (-.8%) decrease in Preschool Education Aid.
- The district has \$1,491,627 designated as excess fund balance. This is the amount over the 2% maximum fund balance allowed by the New Jersey Administrative Code. These funds will be appropriated in the 2012-13 school year.
- Miscellaneous revenues in the General Fund decreased \$4,563,908 due in large measure to the 2009-10 cancellation of accrued salaries upon settlement of bargaining unit contracts.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the annual report consists of four parts: (1) Independent Auditors' Report, (2) required supplementary information which includes the management's discussion and analysis (this section), (3) the basic financial statements, and (4) supplemental information. The basic financial statements include two kinds of statements that present different views of the Passaic Public Schools.

- The first two statements are district-wide financial statements that provide both short-term and long-term information about the Passaic Public Schools' overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the Passaic Public Schools, reporting the Passaic Public Schools' operation in more detail than the district-wide statements.
 - The governmental funds statements tell how basic services such as regular and special education were financed in short term, as well as what remains for future spending.
 - Proprietary funds statements offer short-and long-term financial information about the activities the Passaic Public Schools operate like businesses.
 - Fiduciary funds statements provide information about the financial relationships in which the Passaic Public Schools act solely as a trustee or agent for the benefit of others to whom the resources belong.

Management's Discussion and Analysis (continued)
Fiscal Year Ended June 30, 2011

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. Figure A-1 summarizes the major features of the Passaic Public Schools' financial statements, including the portion of the Passaic Public Schools' activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

District-wide Statements

The district-wide statements report information about the Passaic Public Schools as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the district's assets and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities, regardless of when cash is received or paid.

The two district-wide statements report the Passaic Public Schools' net assets and how they have changed. Net assets, the difference between the district's assets and liabilities, is one way to measure the district's financial health or position.

- Over time, increases or decreases in the district's net assets are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the district, you need to consider additional non-financial factors such as changes in the district's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements, the district's activities are shown as:

- *Governmental activities*- Most of the district's basic services are included here, such as regular and special education, transportation, administration, and community education. Property taxes and state aids finance most of these activities.
- *Business-type activities*-The District charges fees to customers to help it cover the costs of certain services it provides. The District's Food Service Fund is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the district's funds – focusing on its most significant or “major” funds – not the district as a whole. Funds are accounting devices the district uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and by bond covenants.
- The district uses other funds, established in accordance with the State of New Jersey Uniform Chart of Accounts (2008 Edition), to control and manage money for particular purposes (e.g. repaying its long-term debts) or to show that it is properly using certain revenues (e.g. federal funds).

Management's Discussion and Analysis (continued)
Fiscal Year Ended June 30, 2011

The district has three funds categories:

- Governmental funds- Most of the Passaic Public School basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information at the bottom of the governmental funds statements that explain the relationship (or differences) between them.
- Proprietary funds- Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the district-wide statements.
- Fiduciary funds – The District is the trustee, or fiduciary, for assets that belong to others. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net assets. We exclude these activities from the district-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE PASSAIC PUBLIC SCHOOLS AS A WHOLE

Net Assets

The district's net assets for governmental activities were \$214,569,960 on June 30, 2011 as compared with \$201,415,127 on June 30, 2010. Net assets of the governmental activities increased by \$13,154,833 from June 30, 2010 through June 30, 2011. The district's total assets grew by \$14,024,104, and the liabilities increased by \$869,271. Also noteworthy is the district's commitment funds to Restricted Reserves: \$5,000,000 in Maintenance Reserve and \$6,414,798 in Capital Reserve.

The district's financial position is the product of these factors:

- Total revenues in 2010-2011 for Governmental Activities were \$264,021,799, a decrease of \$15,532,410, (-5.6%) when compared with 2009-10. Significant to this decrease was:

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

GOVERNMENTAL FUNDS

The focus of the district's governmental funds is to provide information on the inflows, outflows, and balances of the district's spendable resources. In particular, unassigned fund balance may serve as a useful measure of the district's net resources available for spending at year-end.

GENERAL FUND

The General Fund includes the primary operations of the district in providing educational services to students from prekindergarten through grade 12, including instruction, instructional support, student support, administration, operations and maintenance, pupil transportation activities and capital outlay projects.

General Fund Revenues

In the 2010-11 school year the major source of general fund revenues comes from state sources (state aid) which accounted for 90.9% of total revenues. Federal sources accounted for .4% of total revenues. Local revenues accounted for 8.7% of general fund revenues. The district's local tax levy was \$16,818,577, an increase of \$1,528,962. This increase is the direct result of the SFRA implementation. The summary reflects the dollar and percent increase (decrease) from the prior year.

Fiscal Year Ended June 30, 2011

Appropriated Fund Balance

The district completed the 2010-11 school year with an unassigned (budgetary basis) Fund Balance of \$3,786,851. It is the intent of the Superintendent and the School Business Administrator to preserve these funds for use in the 2012-13 school year. Below is a recapitulation of the District's General Fund balance (budgetary basis) at June 30, 2011:

Summary of General Fund - Fund Balance 2010-11	
Restricted:	
Capital Reserve	6,414,798
Maintenance Reserve	5,000,000
Emergency Reserve	1,000,000
Excess Surplus Designated for Subsequent Year's Budget	1,685,259
Excess Surplus	1,491,627
Committed:	
Encumbrance	261,363
Assigned:	
Designated in Subsequent Year's Budget	7,523,734
Encumbrance	338,095
Unassigned	3,786,851
TOTAL	<u>\$ 27,501,727</u>

The district appropriated \$9,208,993 of fund balance to support 2011-12 operations.

The district has Excess Surplus in the amount of \$3,176,886. The district will exercise prudence in the conduct of operations in 2011-12 in an attempt to preserve monetary resources to assure continuation and implementation of programs and services designed to promote student progress.

Delayed State Payment

The New Jersey Department of Education advised the Board of Education that final two state aid payments for all New Jersey school districts would be delayed until July following the close of the fiscal year. This was a result of a funding crisis and remedies enacted by the State Legislature. The delayed final payments for 2010-11 was the seventh (7th) year requiring the district to borrow monies for cash flow purposes. The delay of the June state aid payments necessitated the district borrowing \$6,525,000 through a short term note. The State of New Jersey funded the principal and interest charges on this note. (See Note 3 Deficit Fund Equity)

General Fund Expenditures

The following schedule presents a summary of General Fund expenditures. The summary reflects the dollar and percent increases/ (decreases) from the prior year.

Total General Fund expenditures decreased \$5,357,656 or -2.5% from the previous year. The presentation reflects a comparison between the 2010-11 school year and the 2009-10 school year. Driving the costs for 2010-11 were:

- Special Education Instruction
- Other Instruction
- Student & instruction Related Services
- Business and Other Support Services

**UNRESERVED-UNDESIGNATED-UNASSIGNED FUND BALANCE AS A
PERCENTAGE OF EXPENDITURES**

The following table shows the General Fund unreserved-undesignated-unassigned fund balance as a percentage of expenditures. In June 2001, Abbott districts were limited to reserve no more than a maximum of 2.0% of its general fund expenditures as unreserved-undesignated fund balance. Impacting the fund balance for the years ended June 30, 2011 and June 30, 2010 was a delayed state aid payment for the last two June payment for 2011 and the last payment in June 2010.

On a GAAP basis, the unassigned fund balance was a deficit balance of \$14,239,250 (Exhibit B-1). On a budgetary basis, the unreserved-undesignated-unassigned fund balance is \$3,786,851 (Exhibit C-1).

CAPITAL PROJECTS AND DEBT SERVICE FUNDS

The Capital Projects Fund expenditures totaled \$8,681,604 for the fiscal year ended June 30, 2011. Expenditures were comprised of on-behalf payments by the New Jersey Schools Development Authority of \$8,193,884 and District expenditures of \$487,720. On-behalf payments by the New Jersey Schools Development Authority of \$14,460,064 comprised all of the Fund's expenditures for the year ended June 30, 2010.

OTHER MAJOR FUNDS

The Food Service Fund operations in 2010-11 resulted in an ending net assets balance of \$395,545. This compares with an ending balance of \$159,247 at the end of the 2009-10 school year. The change in net assets was \$236,298. This marks the third consecutive year the district has operated with revenues exceeding expenditures.

The district undertook a course of corrective actions intended to begin a multi-year plan leading to Food Services profitability. The district's plan focused on these components:

Revised Summary 3-10-2009	Corrective Action Component
1	Increase Meal Prices
2	Increase Participation- Increase Completion of Free & Reduced Price Applications
3	Increase Participation/State and Federal Subsidies
4	Increase Participation--Frequency of Seeking Applications--Improved Utilization of Direct Certification
5	Hiring Freeze/ Staffing Reduction
6	Reduce Labor Cost Through Attrition
7	Reduce Food Service Administrative Costs
8	Utilize Part time Labor
9	Improve Efficiency in Meals Served/ Labor Hours
10	Elimination of Vacation Pay
11	Food Service Budget/Review & Operations
12	Appropriate Funds for Uncollected Meals
13	Improve Accounting & Cost Analysis
14	District Assumption of Operating Costs
15	Participation in State Sponsored Programs to Reduce Costs (Electronic Commodity Ordering System)

All of these activities and actions contributed to the elimination of the Food Services deficit.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2011, the district recorded the investment of \$231,938,632 in a broad range of capital assets, including school buildings, athletic facilities, computer and audio-visual equipment, and administrative offices. Included are capital assets that were not being depreciated: land--\$1,753,991 and construction in progress--\$80,359,361. (Capital Assets--Governmental Activities schedule below.) More detailed information about capital assets can be found in Note 4 to the financial statements. Total depreciation expenses for the year were \$3,962,095.

Long-Term Liabilities

At year-end, the district had \$1,607,391 in general obligation bonds (net) and state loans payable outstanding, a decrease of \$729,370 (31.2%) from last year -- as shown below. The district is not anticipating new long-term debt as a result of the Abbott decision, where the State of New Jersey will assume all new debt responsibilities associated with approved capital projects. School facilities projects, capital maintenance projects, capital projects and rehabilitation projects all require a review and need to be approved by the Department of Education's Office of School Facilities Financing. In order to receive any approval, the project must be included in the district's facilities master plan under the EFCFA legislation.

The district also accrued \$6,419,049 as a liability for compensated absences in the governmental funds. This liability represents the district's contractual obligation to compensate employees for accumulated unused sick leave entitlements upon retirement.

FACTORS BEARING ON THE DISTRICT'S FUTURE

The factors bearing on the fiscal future of the Passaic Public Schools are tied to:

1. The economic health of the State of New Jersey
2. Fiscal reform initiatives of Governor Chris Christie
3. School Funding Reform Act of 2008 (SFRA) – Award of State Aid
4. Revenue generation—Use of grant funding and other opportunities to supplement programs, positions and services
5. Modification of programs and operations to adjust to tighter financial conditions
6. Collective bargaining with employee unions
7. Spiraling special education costs
8. Capital improvements and maintenance
9. Compliance activities required by state and federal governments
10. Charter schools enrollment of district residents

Total Net Change in Fund Balances - Governmental Funds (Exhibit B-2)		\$ 5,935,197
Amounts reported for governmental activities in the statement of activities (A-2) are different because:		
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.		
Capital Outlays	\$ 9,252,129	
Depreciation Expense	<u>(3,962,095)</u>	5,290,034
Repayment of debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not reported in the statement of activities.		
Bond Principal	330,000	
Intergovernmental Loan Principal	412,870	
Unfunded Pension Obligation	<u>1,237,614</u>	1,980,484
In the statement of activities, the deferred loss on refunding is amortized over the life of the related debt issued. Amortization of the deferred loss on refunding does not require the use of current financial resources and therefore are not reported as expenditures in governmental funds		
		(13,500)
In the statement of activities, interest on long-term debt in the statement of activities is accrued, regardless of when due. In the governmental funds, interest is reported when due.		
		32,039
In the statement of activities, certain operating expenses, e.g., compensated absences, claims adjustments are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+).

**PASSAIC PUBLIC SCHOOLS
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Passaic Public Schools (the "Board" or the "District") is an instrumentality of the State of New Jersey, established to function as an education institution. The Board consists of nine elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District. Under existing statutes, the Board's duties and powers include, but are not limited to, the development and adoption of a school program; the establishment, organization and operation of schools; and the acquisition, maintenance and disposition of school property.

The Board also has broad financial responsibilities, including the approval of the annual budget and the establishment of a system of accounting and budgetary controls.

The reporting entity is composed of the primary government, component units, and other organizations that are included to ensure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the Passaic Public Schools this includes general operations, food service and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Based on the foregoing criteria, the District has no component units. Furthermore, the District is not includable in any other reporting entity as a component unit.

B. Basic Financial Statements

The basic financial statements include both district-wide financial statements (based on the District as a whole) and fund financial statements. Both the district-wide and fund financial statements categorize activities as either governmental activities or business-type activities.

The district-wide financial statements report information on all of the nonfiduciary activities of the Board of Education. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by property taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. In the statement of net assets, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) reflect on a full accrual economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

**PASSAIC PUBLIC SCHOOLS
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

B. Basic Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or other governmental entities, including other school districts, who purchase, use, or directly benefit from goods or services provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes, unrestricted state aid, federal and state grants for school-based budgeting and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the district-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The District considers all of its governmental funds and the food service enterprise fund to be major funds.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements with the exception of the agency fund which does not have a measurement focus. All assets and all liabilities associated with these operations (with the exception of the fiduciary funds) are included on the Statement of Net Assets. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual (i.e. when they are both measurable and available). Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Board considers revenues to be available if they are collected within 60 days after year-end. Expenditures are recorded when a liability is incurred, as under accrual basis of accounting, with the exception of debt service expenditures as well as expenditures related to compensated absences and claims and judgments which are recorded only when payment is due.

Property taxes, tuition, unrestricted state aid, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. All other revenue items are considered to be measurable and available only when cash is received by the District.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The District reports the following major governmental funds:

The *general fund* is the School District's primary operating fund. It accounts for all financial resources of the District, except those to be accounted for in another fund.

The *special revenue fund* accounts for the proceeds of specific revenue sources legally restricted to expenditures for specified purposes. This fund accounts for federal and state financial programs, with the exception of grants for major capital projects and the child nutrition programs.

The *capital projects fund* accounts for the proceeds from the sale of bonds, lease purchases and other revenues used for the acquisition or construction of major capital facilities and other capital assets.

The *debt service fund* accounts for the accumulation of resources for and the payment of principal and interest on long-term general obligation debt of governmental funds.

The District reports the following major proprietary fund which are organized to be self-supporting through user charges:

The *food service fund* accounts for the activities of the school cafeteria, which provides food service to students as well as a la carte and catering services for teachers and special events.

Additionally, the government reports the following fund type:

The *fiduciary trust fund* is used to account for resources legally held in trust for private donations for scholarship awards, payroll related activities and student related activities which are supported and controlled by student organizations and clubs. All resources of the fund, including any earnings on invested resources, may be used to support the intended purpose. There is no requirement that any portion of these resources be preserved as capital.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the district-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board (GASB). Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The Board has elected not to follow private-sector guidance issued subsequent to December 1, 1989.

As a general rule the effect of interfund activity has been eliminated from the district-wide financial statements. Exceptions to this general rule are charges between the Board's proprietary and fiduciary funds since elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues in the district-wide statement of activities include 1) charges to customers or applicants for goods or services, provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes, unrestricted state aid, federal and state grants for school-based budgeting investment earnings and miscellaneous revenues.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the food service enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Federal and State subsidies for the food service operation are considered nonoperating revenues.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities and Net Assets or Equity

1. *Deposits and Investments*

Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are reported at fair value and are limited by N.J.S.A. 18A:20-37.

2. *Receivables and Payables*

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the district-wide financial statements as "internal balances".

All receivables are reported at their gross value, and where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Tuition Revenues - Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs are determined and certified by the State Department of Education.

Tuition Expenditures - Tuition charges for the fiscal years 2009-2010 and 2010-2011 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been certified by the State Department of Education.

2. *Receivables and Payables (Continued)*

Property taxes are levied pursuant to law and are collected by the municipality and are transferred to the District as requested. Property tax revenue is recognized in the year they are levied and become available. Property taxes collected in advance of the year-end for which they are levied and transferred to the District are reported as deferred revenues. The tax bills are mailed annually in June by the municipal tax collector and are levied and due in four quarterly installments on August 1, November 1, February 1 and May 1 of the fiscal year. When unpaid, taxes or any other municipal lien, or part thereof, on real property, remains in arrears on April 1st in the year following the calendar year levy when the same became in arrears, the tax collector of the municipality shall, subject to the provisions of New Jersey Statute, enforce the lien by placing the property on a tax sale. The municipality may institute annual "in rem" tax foreclosure proceedings to enforce the tax collection or acquisition of title to the property.

3. *Inventories*

The cost of inventories of the governmental fund types are recorded as expenditures at the time individual inventory items are purchased.

Food Service Fund inventories, exclusive of the federal commodities, are valued at cost, using the first-in first-out (FIFO) method. The United States Department of Agriculture (USDA) commodity portion of the Food Service Fund inventory consists of food donated by the USDA. It is valued at estimated market prices by the USDA. The amount of unused commodities at year-end is reported as unearned revenue.

4. *Capital Assets*

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the district-wide financial statements. Capital assets are defined by the Board as assets with an initial, individual cost of \$2,000 and an estimated useful life in excess of two years. The District was able to estimate the historical cost for the initial reporting of these capital assets through back trending. As the District constructs or acquires additional capital assets each period, they are capitalized and reported at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land Improvements	20
Buildings	40
Building and Site Improvements	20
Machinery and Equipment	5-20
Computer Equipment	5

5. *Compensated Absences*

It is the District's policy to permit employees to accumulate (with certain restrictions) earned but unused personal and sick leave benefits. A long-term liability of accumulated personal and sick leave and salary related payments has been recorded in the governmental activities in the district-wide financial statements, representing the Board's commitment to fund such costs from future operations. Proprietary Funds accrue accumulated personal and sick leave and salary related payments in the period that they are earned.

6. *Long-Term Obligations*

In the district-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Gains and losses resulting from debt refundings are also deferred and amortized over the life of the refunded bonds or new bonds whichever is less using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount and refunding gains or losses. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

7. *Fund Equity*

Beginning with the 2010/2011 fiscal year, the District implemented GASB Statement 54 "Fund Balance Reporting and Governmental Fund Type Definitions". The Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. This statement established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

Restricted Fund Balance – Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Reserved Excess Surplus – Designated for Subsequent Year's Budget - This restriction was created in accordance with NJSA 18A:7F-7 to represent the June 30, 2010 audited excess surplus that was appropriated in the 2011/2012 original budget certified for taxes.

Reserved Excess Surplus – This restriction was created in accordance with NJSA 18A:7F-7 to represent the June 30, 2011 audited excess surplus that is required to be appropriated in the 2012/2013 original budget certified for taxes.

Capital Reserve – This restriction was created by the District in accordance with NJAC 6A:23A-14.1 to fund future capital expenditures (See Note 3.)

7. *Fund Equity (Continued)*

Maintenance Reserve – This restriction was created by the Board in accordance with NJAC 6A:23A-14.2 to accumulate funds for the required maintenance of school facilities in accordance with the EFCA (NJSA 18A:7G-9) for a thorough and efficient education.

Emergency Reserve – This restriction was created in accordance with NJAC 6A:23A-14.4(A)1 to accumulate funds in accordance with State statute to finance unanticipated general fund expenditures required for a thorough and efficient education.

Capital Projects – Represents fund balance restricted specifically for capital acquisitions and improvements in the Capital Projects Fund.

Debt Service – Represents fund balance restricted specifically for the repayment of long-term debt principal and interest in the Debt Service Fund.

Committed Fund Balance – Amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint.

Encumbrances – Represents outstanding purchase orders at year end for contracts awarded by formal action of the Board of Trustee's for specific purposes from available resources of the current year for which the goods and materials have not yet been received or the services have not yet been rendered at June 30.

Assigned Fund Balance – Amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.

Designated for Subsequent Year's Budget – This designation was created to dedicate the portion of fund balance appropriated in the adopted 2011/2012 District budget certified for taxes.

Encumbrances – Represent outstanding purchase orders for goods or services approved by management for specific purposes from available resources of the current year for which the goods and materials have not yet been received or the services have not yet been rendered at June 30.

Unassigned Fund Balance – Represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund.

NOTE 2 RECONCILIATION OF DISTRICT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of Certain Differences between the Governmental Fund Balance Sheet and the District-Wide Statement of Net Assets

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net assets – governmental activities as reported in the district-wide statement of net assets. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$26,588,824 difference are as follows:

Bonds Payable	\$ 320,000
Intergovernmental Loans Payable	1,287,391
Unfunded Pension Obligations	18,562,384
Compensated Absences	<u>6,419,049</u>
Net Adjustment to Reduce Fund Balance - Total Governmental Funds to Arrive at Net Assets - Governmental Activities	<u>\$ 26,588,824</u>

NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

In accordance with the requirements of the New Jersey Department of Education (“the Department”), the District annually prepares its operating budget for the forthcoming year. The budget, except for the general fund and special revenue fund, which is more fully explained below and in the notes to the required supplementary information, is prepared in accordance with accounting principles generally accepted in the United States of America and serves as a formal plan for expenditures and the proposed means for financing them. Capital lease transactions are accounted for on the GAAP basis.

The annual budget is adopted in the spring of the preceding year for the general, special revenue and debt service funds. The District is not required to adopt an annual budget for the capital projects fund. The budget is submitted to the county superintendent and is voted upon at the annual school election on the third Tuesday in April. Budget adoptions and amendments are recorded in the District's board minutes. The budget is amended by the Board of Trustees as needed throughout the year. The budget for revenues, other resources, other uses, and fund balances is prepared by fund source and amount. The budget for expenditures is prepared by fund, program, function, object and amount. The legal level of budgetary control is established at the line item account within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. The Board approved several budget transfers during 2010/2011. During 2010/2011 the Board increased the original budget by \$12,727,074. The increase was funded by the withdrawal of capital reserve funds, grant awards and the reappropriation of prior year general fund encumbrances.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of certain state aid payments for budgetary purposes only and the treatment of encumbrances in the special revenue fund as described in the Notes to Required Supplementary Information (RSI). Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

 NOTES TO THE BASIC FINANCIAL STATEMENTS
 FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

A. Budgetary Information (Continued)

Encumbrance accounting is employed in the governmental funds. Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as committed and/or assigned fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services which are reappropriated and honored during the subsequent fiscal year.

B. Excess Expenditures Over Appropriations

The following is a summary of expenditures in excess of available appropriations. The overexpended appropriations resulted in unfavorable variances.

	<u>Budget</u>	<u>Actual</u>	<u>Unfavorable Variance</u>
General Fund			
Undistributed Expenditures			
Central Services			
Supplies and Materials	\$127,019	\$128,611	\$1,592

The above overexpenditure was the result of an audit adjustment. The variance was offset with other available resources.

C. Deficit Fund Equity

The District has an unassigned deficit fund balance of \$14,239,250 in the General Fund as of June 30, 2011 as reported in the fund financial statements (modified accrual basis). NJSA 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, districts must record these delayed state aid payments as revenue, for budget purposes only, in the current school budget year. The statute provides legal authority for school districts to recognize this revenue in the current budget year. GASB Statement No. 33, "Accounting and Financial Reporting for Nonexchange Transactions", requires that intergovernmental transactions (revenue, expenditure, asset, liability) should be recognized in symmetry (i.e., if one government recognizes an asset, the other government recognizes a liability). Since the State of New Jersey is recording certain 2010/2011 budgeted state aid payments in the subsequent fiscal year, the school district cannot recognize such payments on the GAAP (fund) financial statements until the year the State records the payable. Due to the timing difference of recording these delayed state aid payments, the General Fund balance deficit does not alone indicate that the District is facing financial difficulties; however, unless the State of New Jersey budgets the delayed payments in future years, the District may also report fund balance deficits in the future.

Pursuant to NJSA 18A:22-44.2, any negative unassigned general fund balance that is reported as a direct result of a delay in the payment of state aid until the following fiscal year, is not considered as a violation of New Jersey Statute or regulation and is not considered an item in need of corrective action. The District deficit in the GAAP (fund) financial statements of \$14,239,250 in the General Fund less than the deferred state aid payments.

D. Capital Reserve

A capital reserve account was established by the District on September 25, 2000. The accumulation of funds will be used for capital outlay expenditures in subsequent fiscal years. The capital reserve is maintained in the general fund and its activity is included in the general fund annual budget.

**PASSAIC PUBLIC SCHOOLS

NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

D. Capital Reserve (Continued)

Funds placed in the capital reserve are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line-item appropriation amounts or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6:23A-14.1(g), the balance in the reserve cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the fiscal year ended June 30, 2011 is as follows:

Balance, July 1, 2010		\$ 2,000,001
Increases		
Interest	\$ 6,147	
Deposit Approved by Board Resolution	<u>5,000,000</u>	
		<u>5,006,147</u>
		7,006,148
Decreases		
Approved by Board Resolution		<u>591,350</u>
Balance, June 30, 2011		<u>\$ 6,414,798</u>

The withdrawal from the capital reserve was for the High School Auditorium renovation, which is an approved facilities project, consistent with the District's Long Range Facilities Plan.

E. Transfers to Capital Outlay

During the 2010/2011 school year, the district transferred \$16,549 to non-equipment capital outlay accounts.

F. Calculation of Excess Surplus

In accordance with N.J.S.A. 18A:7F-7, as amended, the restricted fund balance for Reserved Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance in excess of 2% of budget expenditures at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent year's budget. The excess fund balance at June 30, 2011 is \$3,176,886. Of this amount, \$1,685,259 was designated and appropriated in the 2011/2012 original budget certified for taxes and the remaining amount of \$1,491,627 will be appropriated in the 2012/2013 original budget certified for taxes.

NOTE 4 DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

Deposits

The Board's deposits are insured through either the Federal Deposit Insurance Corporation (FDIC), Securities Investor Protection Corporation (SIPC) or New Jersey's Governmental Unit Deposit Protection Act (GUDPA). The Board is required to deposit their funds in a depository which is protecting such funds pursuant to GUDPA. The New Jersey Governmental Unit Deposit Protection Act requires all banks doing business in the State of New Jersey to pledge collateral equal to at least 5% of the average amount of its public deposits and 100% of the average amount of its public funds in excess of 75% of its capital funds or \$200 million for all deposits not covered by the FDIC.

Bank balances are insured up to \$250,000 in the aggregate by the FDIC for each bank. SIPC replaces cash claims up to a maximum of \$250,000 for each failed brokerage firm. At June 30, 2011, the book value of the Board's deposits was \$28,157,739 and bank balances of the Board's cash and deposits amounted to \$38,612,432. The Board's deposits which are displayed on the balance sheets and statement of net assets as "cash and cash equivalents" are categorized as:

<u>Depository Account</u>	<u>Bank Balance</u>
Insured	\$ 38,594,396
Uninsured and Collateralized	<u>18,036</u>
	<u>\$ 38,612,432</u>

Custodial Credit Risk – Deposits – Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Board does not have a policy for custodial credit risk. As of June 30, 2011 the Board's bank balance of \$18,036 was exposed to custodial credit risk as follows:

<u>Depository Account</u>	<u>Bank Balance</u>
Uninsured and Collateralized:	
Collateral held by pledging financial institution's trust department not in the Board's name	<u>\$ 18,036</u>

A. Deposits and Investments (Continued)

Investments

The Board is permitted to invest public funds in accordance with the types of securities authorized by N.J.S.A. 18A:20-37. Examples of the allowable investments are bonds or other obligations of the United States or obligations guaranteed by the United States of America, Government Money Market Mutual Funds, bonds or other obligations of the school district or bonds or other obligations of the local unit or units within which the school district is located, Local Government investment pools, and agreements or the repurchase of fully collateralized securities, if transacted in accordance with the above statute.

As of June 30, 2011, the Board had no outstanding investments.

B. Receivables

Receivables as of June 30, 2011 for the district's individual major funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Special Revenue</u>	<u>Food Service</u>	<u>Total</u>
Receivables:				
Intergovernmental	\$ 538,978	\$ 4,910,071	\$ 600,181	\$ 6,049,230

Net Total Receivables	<u>\$ 538,978</u>	<u>\$ 4,910,071</u>	<u>\$ 600,181</u>	<u>\$ 6,049,230</u>

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue reported in the governmental funds were as follows:

	<u>Unearned</u>
Special Revenue Fund	
Unencumbered Grant Draw Downs	\$ 1,538,606
Grant Draw Downs Reserved For Encumbrances	<u>51,478</u>

NOTE 5 OTHER INFORMATION

A. Risk Management

The District is exposed to various risks of loss related to property, general liability, automobile coverage, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; student accident; termination of employees and natural disasters. The Board has obtained commercial insurance coverage to guard against these events to minimize the exposure to the District should they occur. A complete schedule of insurance coverage can be found in the statistical section of this Comprehensive Annual Financial Report.

The District has established a worker's compensation plan for its employees. Transactions related to the plan are accounted for in the General Fund. The District funds the entire cost of the plan. Claims are paid directly by the plan up to a maximum of \$500,000 for any one accident or occurrence, with any excess benefit being reimbursed through a Re-Insurance Agreement with Great American Spirit Insurance Co. A contingent liability exists with respect to reinsurance, which would become an actual liability in the event the reinsuring company may not be able to meet their obligations to the District under existing reinsurance agreements.

Estimates of claims payable and of claims incurred, but not reported (IBNR) at June 30, 2011, are reported as claims and judgments payable and accrued liability for insurance claims, respectively. These estimates were determined based on claim information supplied by the claims administrator and actuary. The unpaid claims liability of \$1,305,998 reported at June 30, 2011 is based on the requirements of the Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

A. Risk Management (Continued)

Changes in the balances of claims liabilities for the workmen's compensation plan for the fiscal years ended June 30, 2011 and 2010 are as follows:

Governmental Activities:	<u>Fiscal Year Ended</u>	
	<u>June 30, 2011</u>	<u>June 30, 2010</u>
Unpaid Claims, Beginning of Fiscal Year	\$ 1,472,325	\$ 1,530,032
Incurred Claims (including IBNR's)	365,842	479,949
Claim Payments	<u>(532,169)</u>	<u>(537,656)</u>
Unpaid Claims, End of Fiscal Year	<u>\$ 1,305,998</u>	<u>\$ 1,472,325</u>

B. Contingent Liabilities

The District is a party defendant in some lawsuits, none of a kind unusual for a school district of its size and scope of operation. In the opinion of the Board's Attorney the potential claims against the District not covered by insurance policies would not materially affect the financial condition of the District.

Federal and State Awards – The Board participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Board may be required to reimburse the grantor government. As of June 30, 2011, significant amounts of grant expenditures have not been audited by the various grantor agencies but the Board believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any of the individual governmental funds or the overall financial position of the District.

C. Federal Arbitrage Regulations

The District is subject to Section 148 of the Internal Revenue Code as it pertains to the arbitrage rebate on all tax-exempt obligations, both long and short-term debt. Under the 1986 Tax Reform Act, the Internal Revenue Service (IRS) required that all excess earnings from investment proceeds be rebated to the IRS. Arbitrage, for purposes of these regulations, is defined as the difference between the yield on the investment and the yield on the obligations issued. If there are excess earnings, this amount may be required to be rebated to the IRS. At June 30, 2011, the District has not estimated its arbitrage earnings due to the IRS, if any.

D. Employee Retirement Systems and Pension Plans (Continued)

The State of New Jersey sponsors and administers the following contributory defined benefit public employee retirement systems (retirement systems) covering substantially all eligible Board employees:

Public Employees' Retirement System (PERS) – Established in January 1955, under the provisions of N.J.S.A. 43:15A to provide coverage, including post-retirement health care, to substantially all full time employees of the State or any county, municipality, school district, or public agency provided the employee is not a member of another State-administered retirement system. Membership is mandatory for such employees and vesting occurs after 8 to 10 years of service for pension benefits and 25 years for post-retirement health care coverage.

Teachers' Pension and Annuity Fund (TPAF) – Established in January 1955, under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time certified teachers or professional staff of the public school systems in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for post-retirement health care coverage.

The State of New Jersey sponsors and administers the following defined contribution public employee retirement program covering certain state and local government employees which include those Board employees who are eligible for pension coverage.

Other Pension Funds

The State established and administers a Supplemental Annuity Collective Trust Fund (SACT) which is available to active members of the State-administered retirement systems to purchase annuities to supplement the guaranteed benefits provided by their retirement system. The state or local government employers do not appropriate funds to SACT.

The cost of living increase for PERS and TPAF, are funded directly by each of the respective systems and are considered in the annual actuarial calculation of the required State contribution for the system.

According to state law, all obligations of each retirement system will be assumed by the State of New Jersey should any retirement system be terminated.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of each of the above systems. The financial reports may be accessed via the New Jersey, Division of Pensions and Benefits, website at www.state.nj.us/treasury/pensions.

Basis of Accounting

The financial statements of the retirement systems are prepared on the accrual basis of accounting. Employer contributions are recognized when payable to the retirement systems. Benefits or refunds are recognized when due and payable in accordance with the terms of the retirement systems.

Investment Valuation

Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments is based on independent appraisals. Investments that do not have an established market are reported at estimated fair values.

The State of New Jersey, Department of the Treasury, Division of Investment, issues publicly available financial reports that include the financial statements of the State of New Jersey Cash Management Fund, Common Pension Fund A, Common Pension Fund B, Common Pension Fund D and Common Pension Fund E. The financial reports may be obtained in writing to the State of New Jersey, Department of the Treasury, Division of Investment, P.O. Box 290, Trenton, New Jersey 08625-0290.

Significant Legislation

P.L. 2010, c. 1, effective May 21, 2010, made a number of changes to the State-administered retirement systems concerning eligibility, the retirement allowance formula, the definition of compensation, the positions eligible for service credit, the non-forfeitable right to a pension, the prosecutor's part of the PERS, and employer contributions to the retirement system.

This new legislation changed the membership eligibility criteria for new members of TPAF and PERS from the amount of annual compensation to the number of hours worked weekly. Also, it returned the benefit multiplier for new members of TPAF and PERS to 1/60 from 1/55, and it provided that new members of TPAF and PERS have the retirement allowance calculated using the average annual compensation for the last five years of service instead of the last three years of service. New members of TPAF and PERS will no longer receive pension service credit from more than one employer. Pension service credit will be earned for the highest paid position only. This law also closed the prosecutor's part of the PERS to new members and repealed the law for new members that provided a non-forfeitable right to receive a pension based on the laws of the retirement system in place at the time five years of pension service credit is attained. The law also requires the State to make its full pension contribution, defined as 1/7th of the required amount, beginning in Fiscal Year 2012.

P.L. 2010, c.3, effective May 21, 2010, replaced the accidental and ordinary disability retirement for new members of the TPAF and PERS with disability insurance coverage similar to that provided by the State to individuals enrolled in the State's Defined Contribution Retirement Program.

NOTE 5 OTHER INFORMATION (Continued)

D. Employee Retirement Systems and Pension Plans (Continued)

Funding Status and Funding Progress

As of June 30, 2009, the most recent actuarial valuation date, the aggregate funded ratio for all the State administered retirement systems including TPAF and PERS, is 66.0 percent with an unfunded actuarial accrued liability of \$45.8 billion. The aggregate funded ratio and unfunded accrued liability for the State-funded systems is 62.0 percent and \$30.7 billion, and the aggregate funded ratio and unfunded accrued liability for local PERS and Police and Firemen's Retirement System ("PFRS") is 72.1 percent and \$15.1 billion.

The funded status and funding progress of the retirement systems is based on actuarial valuations which involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the probability of future events.

Actuarial calculations reflect a long-term perspective and are based on the benefits provided under the terms of the retirement systems in effect at the time of each valuation and also consider the pattern of the sharing of costs between the employer and members at that point in time. The projection of benefits for financing reporting purposes does not explicitly incorporate the potential effects of legal or contractual limitations on the pattern of cost sharing between the employer and members in the future.

Actuarial Methods and Assumptions

In the June 30, 2009 actuarial valuation, the projected unit credit was used as the actuarial cost method, and the five year average of market value was used as the asset valuation method for the retirement systems. The actuarial assumptions included (1) 8.25 percent for investment rate of return for the retirement systems and (2) 5.45 percent for projected salary increases for the PERS and 5.74 percent for TPAF.

Employer and Employee Pension Contributions

The contribution policy is set by laws of the State of New Jersey and contributions are required by active members and participating employers. Plan member and employer contributions may be amended by State of New Jersey legislation with the amount of contributions by the State of New Jersey contingent upon the Annual Appropriations Act. As defined, the retirement systems require employee contributions based on 5.5% for PERS and TPAF of the employee's annual compensation.

Annual Pension Costs (APC)

Per the requirements of GASB Statement No. 27 for the fiscal year ended June 30, 2011 for TPAF, which is a cost sharing plan with special funding situations, annual pension cost differs from the annual required contribution. For PERS, which is a cost sharing multi-employer defined benefit pension plan, the annual pension cost equals contributions made. TPAF employer contributions are made annually by the State of New Jersey to the pension system on behalf of the Board. PERS employer contributions are made annually by the Board to the pension system in accordance with Chapter 114, P.L. 1997. In the DCRP, which is a defined contribution plan, member contributions are matched by a 3% employer contribution.

Annual Pension Costs (APC) (Continued)

During the fiscal years ended June 30, 2011, 2010 and 2009 the Board was required to contribute for PERS and DCRP and the State of New Jersey was required to contribute for TPAF for normal cost pension and accrued liability contributions (including non-contributory group life insurance (NCGI)) the following amounts:

Year Ended <u>June 30,</u>	<u>PERS</u>	On-behalf <u>TPAF</u>
2011	\$ 2,575,576	\$ 285,814
2010	1,954,605	311,496
2009	1,876,533	319,356

During the last three fiscal years the State of New Jersey did not contribute to the TPAF for normal cost and accrued liability. The State contributed \$285,814, \$311,496 and \$319,356 during 2010/2011, 2009/2010 and 2008/2009, respectively, for the NCGI premium only.

Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Board \$7,193,177 during the fiscal year ended June 30, 2011 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. This amount, along with the on-behalf TPAF pension contribution, has been included in the district-wide financial statements and the fund financial statements as a revenue and expenditure in accordance with GASB No. 24.

E. Post-Retirement Medical Benefits

The State of New Jersey sponsors and administers the post-retirement health benefit program plans for school districts. The Plans are cost sharing multiple employer defined benefit plans.

As a result of implementing Governmental Accounting Standards Board (GASB) Statement No. 43, *Financial Reporting for Post-employment Benefit Plans Other than Pension Plans* (OPEB), effective for Fiscal Year 2007, the State Health Benefits Program (SHBP), and the Prescription Drug Program (PDP), and Post-Retirement Medical (PRM) of the PERS and TPAF are combined and reported as Pension and Other employee Benefit Trust Funds in the State's Comprehensive Annual Financial Report (CAFR). Specifically, SHBP-State, PDP-State, and the PRM of the PERS are combined and reported as a Health Benefits Program Fund – State classified as a single employer plan. The SHBP-Local, PDP-Local, and the PRM of the TPAF are combined and reported as Health Benefits Program Fund –Local Government classified as a cost-sharing multiple-employer plan in the State's CAFR. The post-retirement benefit programs had a total of 514 state and local participating employers and contributing entities for Fiscal Year 2010.

The State of New Jersey sponsors and administers the following health benefit programs covering certain state and local government employees, including those Board employees and retirees eligible for coverage.

Health Benefits Program Fund (HBPF) – Local Education (including Prescription Drug Program Fund) – The State of New Jersey provides free coverage to members of the Teachers' Pension and Annuity Fund who retire from a board of education or county college with 25 years of service or on a disability retirement. Under the provisions of P.L. 1992, c.126, the State also provides free coverage to members of the Public Employees' Retirement System and Alternate Benefits Program who retire from a board of education or county college with 25 years of service or on a disability retirement if the member's employer does not provide this coverage. Certain local participating employers also provide post-retirement medical coverage to their employees. Retirees who are not eligible for employer paid health coverage at retirement can continue in the program if their employer participates in this program or if they are participating in the health benefits plan of their former employer and are enrolled in Medicare parts A and B by paying the cost of the insurance for themselves and their covered dependents. Also, education employees are eligible for the PDP coverage after 60 days of employment.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of the above Fund. The financial reports may be accessed via the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, website at www.state.nj.us/treasury/pensions.

Basis of Accounting

The financial statements of the health benefit programs are prepared on the accrual basis of accounting. Employer contributions are recognized when payable to the health benefit programs. Benefits or refunds are recognized when due and payable in accordance with the terms of the health benefit programs.

Significant Legislation

P.L. 2010, c.2 effective May 21, 2010, makes changes to the SHBP-State/Local Government/Local Education concerning eligibility, cost sharing, choice of a plan, the application of benefit changes, the waiver of coverage, and multiple coverage under such plans. It also requires contributions toward the cost of health care benefits coverage by public employees and certain retirees.

Investment Valuation

Investments are reported at fair value. Investments that do not have an established market are reported at estimated fair values.

Funded Status and Funding Progress

As of June 30, 2009, the most recent actuarial valuation date, the State had a \$56.8 billion unfunded actuarial accrued liability for other post-employment benefits (OPEB) which is made up to \$20.5 billion for state active and retired members and \$36.3 billion for education employees and retirees that become the obligation of the State of New Jersey upon retirement.

The funded status and funding progress of the OPEB is based on actuarial valuations which involve estimates of the value of reported amounts and assumptions about the probability of events in the future. These amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the probability of future events.

Funded Status and Funding Progress (Continued)

Actuarial calculations reflect a long-term perspective and are based on the benefits provided under the terms of the OPEB in effect at the time of each valuation and also consider the pattern of the sharing of costs between the employer and members at the point in time. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal contractual funding limitations on the pattern of cost sharing between the employer and members in the future.

Actuarial Methods and Assumptions

In the June 30, 2009, actuarial valuation, the projected unit credit was used as the actuarial cost method, and the market value was used as asset valuation method for the OPEB. The actuarial assumptions included 4.50 percent for investment rate of return for the OPEB.

Post-Retirement Medical Benefits Contributions

P.L. 1987, c. 384 and P.L. 1990, c.6 required the Teachers' Pension and Annuity Fund (TPAF) and Public Employees' Retirement System (PERS), respectively to fund post-retirement medical benefits for those State employees and education employees who retire after accumulating 25 years of credited service or on a disability retirement. As of June 30, 2010, there were 87,288 retirees receiving post-retirement medical benefits and the State contributed \$883.8 million on their behalf. The cost of these benefits is funded through contributions by the State and in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to P.L. 1992, c.126, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education with 25 years of service. The State paid \$126.3 million toward Chapter 126 benefits for 14,050 eligible retired members in fiscal year 2010.

The State sets the contribution rate based on a pay as you go basis and not on the *annual required contribution of the employers (ARC)*, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The State's contributions to the State Health Benefits Program Fund for TPAF retirees' post-retirement benefits on behalf of the School District for the years ended June 30, 2011, 2010 and 2009 were \$6,070,701, \$5,850,327 and \$6,092,500, respectively, which equaled the required contributions for each year. The State's contributions to the State Health Benefits Program Fund for PERS retirees' post-retirement benefits on behalf of the School District was not determined or made available by the State of New Jersey.

BUDGETARY COMPARISON SCHEDULE
NOTE TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of certain state aid payments for budgetary purposes only and the treatment of encumbrances in the special revenue fund as described below. Encumbrance accounting is also employed as an extension of formal budgetary integration of the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the Special Revenue Funds are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The following presents a reconciliation of the General and Special Revenue Funds from the budgetary basis of accounting as presented in the Budgetary Comparison Schedule - General Fund and Special Revenue Fund to the GAAP basis of accounting as presented in the Statement of Revenues, Expenditures and Changes in Fund Balance - Governmental Funds.

Meeting Educational Challenges in a Tight Fiscal Environment

STATISTICAL SECTION

This part of the Passaic Public School's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents

Exhibits

Financial Trends

These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.

J-1 to J-5

Revenue Capacity

These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.

J-6 to J-9

Debt Capacity

These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

J-10 to J-13

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

J-14 and J-15

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

J-16 to J-20

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Note:

GASB requires that ten years of statistical data be presented. However, since the District implemented the new reporting model contained in GASB No. 34 in fiscal year 2002 only nine years of information are available. Each year thereafter, an additional year's data will be included until ten years of data is present.

Beginning with Fiscal Year 2011, the District implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions". The Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. This Statement established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Reclassification of prior year fund balance amounts to comply with Statement No. 54 is not required.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable President and Members
of the Board of Trustees
Passaic Public Schools
Passaic, New Jersey

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Passaic Public Schools as of and for the fiscal year ended June 30, 2011, which collectively comprise the Passaic Public Schools' basic financial statements and have issued our report thereon dated November 22, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States and audit requirements as prescribed by the Division of Finance and Regulatory Compliance, Department of Education, State of New Jersey.

Internal Control Over Financial Reporting

Management of the Passaic Public Schools is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Passaic Public Schools' internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Passaic Public Schools' internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Passaic Public Schools' internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Passaic Public Schools' financial statements will not be prevented, or detected and corrected on a timely basis.

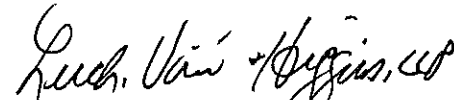

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Passaic Public Schools' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and audit requirements as prescribed by the Division of Finance and Regulatory Compliance, Department of Education, State of New Jersey.

We noted certain matters that we have reported to management of the Passaic Public Schools in a separate report entitled, "Auditors' Management Report on Administrative Findings – Financial, Compliance and Performance" dated November 22, 2011.

This report is intended solely for the information and use of management, the Board of Trustees, others within the District, the New Jersey State Department of Education and other federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 AND NEW JERSEY OMB CIRCULAR 04-04

Independent Auditor's Report

Honorable President and Members
of the Board of Trustees
Passaic Public Schools
Passaic, New Jersey

Compliance

We have audited the Passaic Public Schools' compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement and the New Jersey OMB Circular 04-04 State Aid/Grant Compliance Supplement that could have a direct and material effect on each of Passaic Public Schools' major federal and state programs for the fiscal year ended June 30, 2011. Passaic Public Schools' major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirement of laws, regulations, contracts and grants applicable to each of its major federal and state programs is the responsibility of the Passaic Public Schools' management. Our responsibility is to express an opinion on Passaic Public Schools' compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; audit requirements as prescribed by the Division of Finance and Regulatory Compliance, Department of Education, State of New Jersey; OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and New Jersey OMB Circular 04-04, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Those standards and circulars require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about Passaic Public Schools' compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Passaic Public Schools' compliance with those requirements.

In our opinion, Passaic Public Schools complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2011.

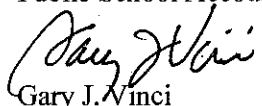

Internal Control Over Compliance

Management of Passaic Public Schools is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal and state programs. In planning and performing our audit, we considered Passaic Public Schools' internal control over compliance with requirements that could have a direct and material effect on a major federal or state program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and New Jersey OMB Circular 04-04, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Passaic Public Schools' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of Trustees, others within the District, the New Jersey State Department of Education and other federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

NOTES TO THE SCHEDULES OF EXPENDITURES OF
FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

NOTE 1 GENERAL

The accompanying schedules present the activity of all federal and state financial assistance programs of the Passaic Public Schools. The Board of Education is defined in Note 1(A) to the Board's basic financial statements. All federal financial assistance received directly from federal agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

NOTE 2 BASIS OF ACCOUNTING

The accompanying schedules are presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Notes 1(C) to the Board's basic financial statements.

NOTE 3 RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on a modified accrual basis with the exception of the revenue recognition of the delayed state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2.. For GAAP purposes, those payments are not recognized until the subsequent year due to the state deferral and recording of certain state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, which may include the delayed state aid payments, whereas the GAAP basis does not. The special revenue fund also recognizes the delayed state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is an increase of \$1,113,306 for the general fund and a decrease of \$680,202 for the special revenue fund. See the Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as presented as follows:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund	\$ 760,830	\$ 189,747,409	\$ 190,508,239

NOTE 6 OTHER INFORMATION

Revenues and expenditures reported under the National School Lunch Program as non-cash assistance represent current year value received and current year distributions, respectively of the Federal Food Distribution Program. TPAF Social Security contributions in the amount of \$7,193,177 represents the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the year ended June 30, 2011. The amount reported as TPAF Pension System NCGI Contributions in the amount of \$285,814 and TPAF Post-Retirement Medical Benefits Contributions in the amount of \$6,070,701 represents the amount paid by the State on behalf of the District for the year ended June 30, 2011. The School Development Authority's ("SDA") Educational Facilities Construction and Financing Act on-behalf payments totaling \$8,193,884 represent the amounts paid by SDA on behalf of the District for the facility project expenditures of the District for the year ended June 30, 2011.

NOTE 7 ON-BEHALF PROGRAMS NOT SUBJECT TO STATE SINGLE AUDIT

On-behalf State Programs for TPAF Pension and Post-Retirement Medical Benefits Contributions as well as on-behalf School Development Authority Educational Facility Construction and Financing Act Program payments are not subject to a State single audit and, therefore, are excluded from major program determination. The Schedule of State Financial Assistance provides a reconciliation of State financial assistance reported in the District's basic financial statements and the amount subject to State single audit and major program determination.

FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

This section identifies the status of prior-year findings related to the basic financial statements and federal and state awards that are required to be reported in accordance with Chapter 6.12 of *Government Auditing Standards*, U.S. OMB Circular A-133 (Section .315(a)(b)) and New Jersey OMB's Circular 04-04.

STATUS OF PRIOR YEAR FINDINGS

Finding 2010-1

- The salaries of certain Directors and Supervisors within the District were charged to Improvement of Instructional Services (221) rather than General Administration (240).
- The employee tuition reimbursements were misclassified and misbudgeted to the Other Employee Benefits line item rather than to the Tuition Reimbursement line item.
- The District transferred funds of \$417,980 to the Capital Outlay – Construction Services line item in July 1, 2010 for the 2009/10 school year budget. The transfer request was sent to the County Superintendent on October 12, 2010.

Status

Corrective action has been taken.
