

Pablo Muñoz
Superintendent of Schools

March 24, 2020

Dear Passaic Students, Parents, and Staff:

On Tuesday, March 24, 2020, the Passaic Public Schools was advised that an employee tested positive for COVID-19. The employee is not assigned to a specific school for the purposes of their duties.

Individuals identified as having close contact with the employee on March 16, 2020, when school was not in session, will receive the appropriate notification and will be directed to self-quarantine and monitor their health for symptoms. The City of Passaic Division of Health, following the guidance provided by the New Jersey Department of Health defines close contact as being within six feet of the affected person for ten minutes or greater.

In addition, the locations that the employee was identified as visiting will undergo additional sanitation protocols.

The health and safety of our staff remains a priority, and we will remain in consistent communication with local health officials.

Thank you to all of the staff who are working on the frontline to provide our community with the critical supplies they need during this challenging time.

Sincerely,

Pablo Muñoz
