

Pablo Muñoz
Superintendent of Schools

October 26, 2020

Dear Passaic Students, Parents, and Staff:

On Monday, October 26, 2020, the Passaic Public Schools received documentation that an employee tested positive for COVID-19.

Individuals identified as having close contact with the employee on October 22, 2020 or October 23, 2020, were contacted and received the appropriate notification directing them to self-quarantine and monitor their health for symptoms. The City of Passaic Division of Health, following the guidance provided by the New Jersey Department of Health defines close contact as being within six feet of the affected person for ten minutes or greater.

In addition, the location that the employee was identified as visiting received additional sanitation protocols.

The health and safety of our staff remains a priority, and we will remain in consistent communication with local health officials.

Thank you to all of the staff who are working during this challenging time.

Sincerely,

A handwritten signature in blue ink that reads "Pablo Muñoz".

Pablo Muñoz
