

Pablo Muñoz  
Superintendent of Schools

October 30, 2020

Dear Passaic Students, Parents, and Staff:

On Thursday, October 29, 2020, the Passaic Public Schools was advised that an employee tested positive for COVID-19.

Individuals identified as having close contact with the employee on October 25, 2020, will receive the appropriate notification and will be directed to self-quarantine and monitor their health for symptoms. However, there were no district employees identified as having close contact. The City of Passaic Division of Health, following the guidance provided by the New Jersey Department of Health defines close contact as being within six feet of the affected person for ten minutes or greater.

In addition, the locations that the employees were identified as visiting received additional sanitation protocols.

The health and safety of our staff remains a priority, and we will remain in consistent communication with local health officials.

Thank you to all of the staff who are working during this challenging time.

Sincerely,

A handwritten signature in blue ink that reads "Pablo Muñoz".

Pablo Muñoz
